RE: Before/After Care Bussing

Students are to be 5 days consistent at any stop or parents are responsible to provide transportation from the school or that location (example: day care) on the alternate days. The above is a Southington Board of Education policy.

Parents/Legal Guardians are responsible to contact the child's school office as well as the child's teacher explaining what exact care the child will be doing with the YMCA Child care department.

If your child will be out for the day, please contact the respected site phone. Leave a detailed message and contact info if needed. The site information is located below.
